

**May 2008** Almost a year after we expanded into our new office and showroom, Interior Systems decided that it is time to celebrate our successful expansion!

Local interior designers, architects, contractors, customers and other important contributors to Interior Systems' success were invited to our showroom at 1721 Miller Street in La Crosse, Wisconsin on Thursday, May 1st. Attendees enjoyed delicious catered appetizers, wine and beer, all in our design savvy establishment. Not only has Interior Systems grown to a new building, we have redesigned our product literature, as well as our website at [www.interiorsystems.com](http://www.interiorsystems.com). Since Interior Systems is constantly innovating and adding to our unique and impressive Designer Ceiling products, our website is a user-friendly and up-to-date tool to stay up to date on trends in Designer Ceilings.

Those unable to attend Interior Systems' Open House are welcome to experience the showroom for themselves at their convenience. The public is welcome!
